MILAN

The loyalty card nobody loses.

Digital loyalty cards for cafés, bakeries and shops. On your customers' phones, no app.

PREPARED FOR **The Coffee**

HOW IT WORKS

Three steps. Ten minutes.

Customers download nothing. You buy nothing: the phone you already have is enough.

1

We create the card

Name, reward, number of stamps. We set it up together, in your colours.

ONCE

2

Customers scan the QR

The poster at the till does the work. In 10 seconds the card is on their phone.

YOUR CUSTOMER, 10 SECONDS

3

Staff add the stamp

They scan the customer's card with their phone and tap once. Full card? Hand over the reward.

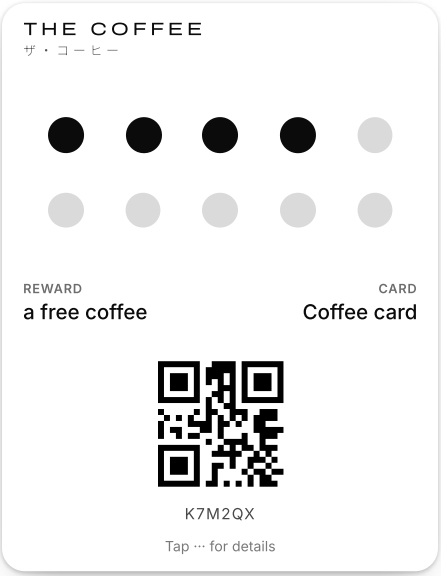

EVERY VISIT

Why it works for a café

- Paper cards get lost. Phones don't.
- Customers see how many stamps are left, and come back to finish.
- You know who your regulars are and how often they come.
- No cards to reprint, no rubber stamps to buy.

YOUR CARD

Here's the card for The Coffee.
